

Sprint 3

- Sprint 3 Planning
- Sprint 3 Weekly Stand-ups
 - Date - 8 Oct 2021
 - Date - 17 Oct 2021
- Sprint 3 Review/Handover
- Sprint 3 Retrospective
- Sprint 3 Testing

Sprint 3 Planning

Overview

Meeting facilitator	Edward
Attendees	Hans, Jackey, Jawad, Mia
Date & Time	4-Oct-2021; 4:15pm - 5:30pm AEDT

Meeting agenda

- Discuss the time change in this sprint
- Select the most important user stories
- Decide the tasks and assign ourselves on Trello

Sprint 3 Backlog - User Stories

User Stories			Acceptance Criteria			Priority	Estimate	Assigned to
As a <Role>	I want to <Do Something>	So that <Achieve some goals>	Given <context>	When <an event>	Then <outcome>			
User	visualize the sales data using relevant plots on the dashboard	track and get insight about deals so far	logged in and on the dashboard	click the graphs panel	displays all the plots relevant to sales data	Should Have	Large (3 days)	Jackey
Administrator	See list of users	decide what actions to take on users	An administrator is logged into their account	goes to his front page	a list of users would be displayed	Must Have	Medium (2 days)	Edward
Administrator	delete a user account	revoke access permission to the app	Administrator is logged into their account & selects a user account	clicks on the button to delete user's account	selected user account gets deleted from the system	Must Have	Small (1 day)	Jawad

Administrator	delete a deal	possible faults can be managed/tolerated	An administrator is logged into their account	selects a user account's deal and clicks on the delete button	the deal gets deleted from the user account and is no longer displayed in selected account	Must Have	Medium (2 days)	Mia
Administrator	Update a user details	possible faults can be managed/tolerated	An administrator is logged into their account	selects a user account and enters the new details	the user details updated	Must Have	Medium (2 days)	Edward

Sprint 3 Weekly Stand-ups

Date: 8-Oct-2021

Overview

Meeting facilitator	Edward
Attendees	Jackey, Hans, Jawad

Stand Up

	Since the last Stand-up, I have...	Before the next Stand-up, I will...	What's slowing me down is...
Edward	Tested the updated admin routes Planned for sprint 3	Work on Team Presentation	Assignments from other subjects
Hans	fixed bugs on visualization	Do Team Presentation, add view deal details feature and/or contact page	Other Projects and Assignments
Jackey	fixed bugs in auth form for admins	Work on Presentation	Deadlines
Jawad	<ol style="list-style-type: none">fixing bug : Authorization for crud dealfixing bug : Network error for put requestDeployment(confluence page)fixing bug: reject old token after password updateunify the admin and user log inchange delete deals to flag the deals onlyfixing bug: clearing store at logoutPrepare document for sprint review, sprint planningImplemented limit admin register; single register admin and user(backend)	Team presentation	Assignment, Lectures assignment

Date: 15-Oct-2021

Overview

Meeting facilitator	Edward
Attendees	Mia, Hans, Jackey, Jawad

Stand Up

	Since the last Stand-up, I have...	Before the next Stand-up, I will...	What's slowing me down is...
Edward	Worked on Team presentation Updated readme on github	Finish up documents needed (Github repo and handover documents)	Assignments from other subjects
Hans	added view deal details feature, and fixed bugs on modal component made card components immovable for admin	further prepare for team presentation and maybe work on contact list	Other Projects and Assignments
Jackey	fixed dataloading for admins	finish documentation	deadlines
Mia	Worked on front-end styling	1. Polish the styling and the remaining components 2. Work on team presentation	Other Assignments, personal commitments
Jawad	1. Refactored backend code to grasp principles 2. Fixed bugs for admin routes and api calls 3. Implemented the frontend reducers and component for crud table user 4. Went through the discord chat history to gather points for the team presentation 5. refine the front end navbar	-	-

Sprint 3 Review/ Handover

Overview

Date & Time	22-Oct-2021 4:15 AEST
Meeting facilitator	Mia
Attendees	Jawad, Jackey, Hans, Edward, Wei Li (Client)

Meeting agenda

- Start – Sprint Review Meeting starts
- Welcome the Stakeholders – Product Owner welcomes the stakeholders to attend the review
- Present Review Agenda – Product Owner presents the agenda for the Sprint Review
 - Product demo
 - Client feedback
- Present Product Increments – Development Team present the product demo that have been implemented in the Sprint
- Get Feedback – Product Owner asks the stakeholders for feedback regarding the product that have been delivered
- Handover- add Wei Li to GitHub; grant access to the DB

Minutes/ Notes

1. Good UI, Kanban board, Graph functionality/UI - good
2. Submit on deal view must be fixed
3. Local storage design to block any session login - really impressive
4. Flexible design framework - good
5. Flagged deal functionality - good
6. Good Authorization functionality
7. Overall satisfied.

Sprint 3 Retrospective

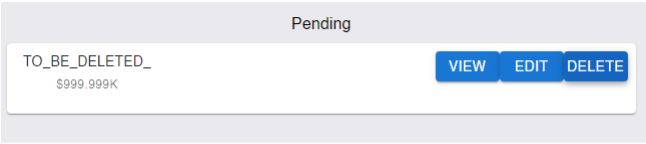

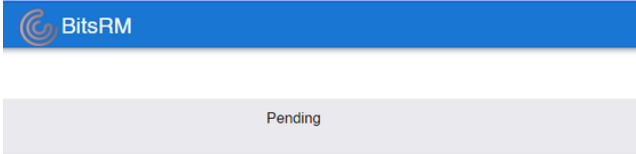

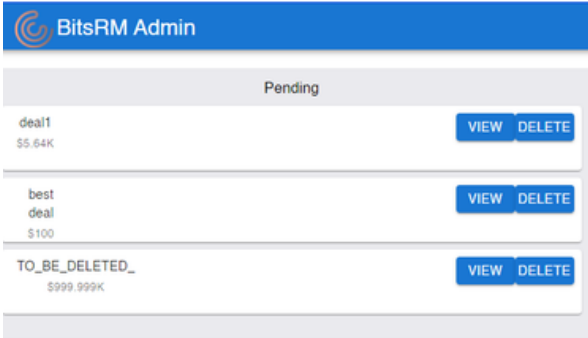

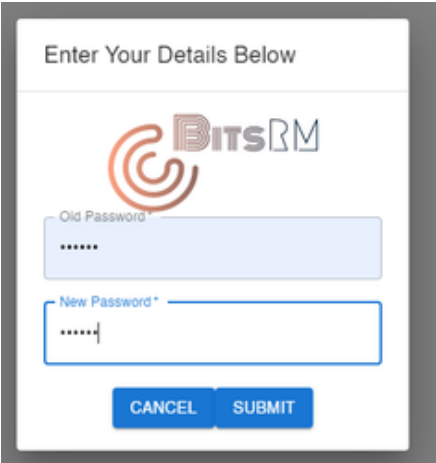

Sprint 3 retrospective - <https://www.atlassian.com/team-playbook/plays/4-ls-retrospective-technique>

Meeting facilitator	Edward
Attendees	Jawad, Hans, Mia, Jackey
Date & Time	22nd of October 2021, 1645 AEST

	LOVED: what you loved about your work over the time period.	LONGED FOR: what you wish you'd had.	LOATHED: what made life worse back then. What do you hope will never happen again?	LEARNED: what you learned from your successes and your mistakes.
Edward	Working on the backend Having all the documents neatly prepared, looked professional	Better ability to write clean code	not defining user as clearly as i could, making extra routes for both admin and user when they could have been combined	should clearly define the roles of users, so that i could have made 1 user model to cover both users and admin earlier on
Hans	Working on the project overall, completing a product	<ul style="list-style-type: none">more experience in front-end to add more features to the product	<ul style="list-style-type: none">Having three deadlines within a day of each otherrendering bugsbroken app during demo due to not thoroughly checking	<ul style="list-style-type: none">Double check every feature before demoDo better time management
Jackey	Adding functions to a FUNCTIONAL project	Knowing what a successful product should look like	crunch time	build modules that are truly low coupling, with modifiable behavior that is predictable

Mia	The styling and working with designs and organizing design constructs	<ul style="list-style-type: none"> • More time for more exploration. • More experience in styling 	<ul style="list-style-type: none"> • Bugs showing up at the end moment. • Time constraint due to other subject responsibilities 	<ul style="list-style-type: none"> • While doing functional coding, keep the prototype in mind. If you keep styling at the end, some constraints might arise that limit the styling. • Test all the features more than once before sprint/handover.
Jawad	<ul style="list-style-type: none"> • Refactoring the backend according to GRASP • Finally implemented redux for customer and user • Finally worked on the frontend • Good team presentation and demo 	<ul style="list-style-type: none"> • Good presentation skills and confidence 	<ul style="list-style-type: none"> • live demo during Sprint review 3 when our app stopped working reminds me of the windows 98 live demo 	<ul style="list-style-type: none"> • How to work on simple crud frontend • Prepare for a team presentation • How to present a product and discuss team accomplishments • Finally end to end project delivery from inception to handover;

Sprint 3 Testing

Function	Expected Behaviour	Result
Front end - flag user for deletion	<p>press DELETE, deal disappears on non-admin users</p> <p>admins able to see flagged deal</p> 	<p>Behaves as intended, deal deleted from user dashboard, flagged deal appears on admin dashboard</p>  
Front end - user change password	<p>enter old password, enter new password</p> 	<p>display password changed in bottom left corner, user remains logged in</p> 

Front end -
