Date & Time	4-Oct-2021; 4:15pm - 5:30pm AEDT

🕐Meeting agenda

- Discuss the time change in this sprint
- Select the most important user stories
- Decide the tasks and assign ourselves on Trello

📚Sprint 3 Backlog - User Stories

User Stories			Acceptance Criteria			Priority	Estimate	Assigned to
As a <Role>	I want to <Do Something>	So that <Achieve some goals>	Given <context>	When <an event>	Then <outcome>			
User	visualize the sales data using relevant plots on the dashboard	track and get insight about deals so far	logged in and on the dashboard	click the graphs panel	displays all the plots relevant to sales data	Should Have	Large (3 days)	Jackey

Administrator	See list of users	decide what actions to take on users	An administrator is logged into their account	goes to his front page	a list of users would be displayed	Must Have	Medium (2 days)	Edward
Administrator	delete a user account	revoke access permission to the app	Administrator is logged into their account & selects a user account	clicks on the button to delete user's account	selected user account gets deleted from the system	Must Have	Small (1 day)	Jawad
Administrator	delete a deal	possible faults can be managed/ tolerated	An administrator is logged into their account	selects a user account's deal and clicks on the delete button	the deal gets deleted from the user account and is no longer displayed in selected account	Must Have	Medium (2 days)	Mia
Administrator	Update a user details	possible faults can be managed/ tolerated	An administrator is logged into their account	selects a user account and enters the new details	the user details updated	Must Have	Medium (2 days)	Edward

Sprint 3 Weekly Stand-ups

Date: 8-Oct-2021

📋Overview

Meeting facilitator	Edward
Attendees	Jackey, Hans, Jawad

🕑Stand Up

	Since the last Stand-up, I have…	Before the next Stand-up, I will…	What's slowing me down is…
Edward	Tested the updated admin routes Planned for sprint 3	Work on Team Presentation	Assignments from other subjects
Hans	fixed bugs on visualization	Do Team Presentation, add view deal details feature and/or contact page	Other Projects and Assignments
Jackey	fixed bugs in auth form for admins	Work on Presentation	Deadlines

Jawad	1. fixing bug : Authorization for crud deal 2. fixing bug : Network error for put request 3. Deployment(confluence page) 4. fixing bug: reject old token after password update 5. unify the admin and user log in 6. change delete deals to flag the deals only 7. fixing bug: clearing store at logout 8. Prepare document for sprint review, sprint planning 9. Implemented limit admin register; single register admin and user(backend)	Team presentation	Assignment, Lectures assignment

Date: 15-Oct-2021

📋Overview

Meeting facilitator	Edward
Attendees	Mia, Hans, Jackey, Jawad

🕐Stand Up

|	Since the last Stand-up, I have…	Before the next Stand-up, I will…	What's slowing me down is…
Edward	Worked on Team presentation Updated readme on github	Finish up documents needed (Github repo and handover documents)	Assignments from other subjects
Hans	added view deal details feature, and fixed bugs on modal component made card components immovable for admin	further prepare for team presentation and maybe work on contact list	Other Projects and Assignments
Jackey	fixed dataloading for admins	finish documentation	deadlines
Mia	Worked on front-end styling	1. Polish the styling and the remaining components 2. Work on team presentation	Other Assignments, personal commitments

Jawad	1. Refactored backend code to grasp principles 2. Fixed bugs for admin routes and api calls 3. Implemented the frontend reducers and component for crud table user 4. Went through the discord chat history to gather points for the team presentation 5. refine the front end navbar	-	-

Sprint 3 Review

Sprint 3 Retrospective

Sprint 3 Testing

Function	Expected Behaviour	Result
Front end - flag user for deletion	press **DELETE,** deal disappears on non-admin users admins able to see flagged deal 	Behaves as intended, deal deleted from user dashboard, flagged deal appears on admin dashboard
Front end - user change password	enter old password, enter new password 	display password changed in bottom left corner, user remains logged in

Front end - admin delete deals	Deletes Deal from admin dashboard, deal should be gone	*DELETE* pressed, deal is deleted from admin dashboard

|		
Front end - admin alter user details	Pressing *Edit* should bring up menu to edit user info, after confirming the edit, user should be able to log in using new info. 	Change is reflected in **_User_** tab immediately, user is able to log in using new credentials. demo user login: user login success chip (bottom left corner):

		Admin press ***DELETE***: Confirmation: Deleted, user is no longer in **_User_** tab: User can no longer log in:
Front end - admin deletes user	admin press delete button for a user, confirms prompt, user should be deleted and should not be allowed to log in.	

| Front-end graph visualization | while logged in, clicking on the graph/dashboard tab will show a graph visualization of the deals | |
